Once you have been to Madeira, you certainly want to go there again and again. One reason for this might of course be the unique beauty of the sometimes rugged flower island, which attracts all year round with average temperatures of 20° to 25° Celsius.

Motorcycling on the Atlantic island of Madeira, which is appreciated by many customers as a paradise for curves, is extremely varied.

However, the renter should not forget that this feature is the result of combining a rugged landscape with winding and sometimes very steep roads. Several years of riding experience is essential. Only then will biking on Madeira really be fun.

The hotel is located in Canico, a small village on the south coast halfway between the airport (12 km) and the capital Funchal (10 km). Canico is conveniently located so that from here, all destinations on the island can be reached within a day trip. It has a garden restaurant, a captain's bar and rooms facing the sea. 25 double rooms with balcony, shower/WC, kitchenette, satellite TV, telephone, restaurant and bar.

MOTORBIKE IN TECHNICAL AND OPTICAL TOP QUALITY.

When we started renting out motorcycles in Madeira in 1995, we set ourselves the goal of offering only well maintained machines in a roadworthy condition. We remain true to this claim to this day. Again and again we hear from our customers shock stories about rented motorcycles in southern countries, whose use represented a danger to life and limb of rider and co-rider due to the insufficient technical condition.

OWN WORKSHOP WITH SPECIAL TOOLS AND DIAGNOSTIC TESTERS

In order to guarantee the desired high standard it is necessary to carry out maintenance and repair of the

motorcycles in our own tailor-made workshop. We follow the specifications of the manufacturers and the maintenance plan developed by us and adapted to the special conditions of Madeira. This enables us to react quickly and effectively to any situation, regardless of the dealer.

ABS - THE SAFETY OF OUR CUSTOMERS IS OUR TOP PRIORITY.

The ABS is extremely important for the motorcyclist on Madeira. Therefore, we converted our entire fleet to motorcycles with ABS very early in 2000. The development during the past years proves that we have increased the passive safety for rider and co-rider decisively.
