Dates and duration (days)

On this round trip we can expect pure hospitality, a Mediterranean climate, 96 peaks with an altitude of over 1500 m, numerous national parks and endless winding roads that connect everything and provide extensive driving fun.

We cross the Alps on selected, finest motorcycle routes with ingenious serpentine roads through Austria, northern Italy and Slovenia before we meet the fantastic Croatian coast at the Kvarner Bay.
Croatia -Dalmatia

This new and rediscovered holiday destination attracts a large number of motorcyclists every year. A small country on the Adriatic, which could not be more different, dotted with lowlands, mountainous regions and a unique coast. Nowhere in Europe is the water as clean as in Croatia. Enchanting villages, romantic fishing villages and endless beaches with their beautiful bays will be our constant companions. Along the coast we will lead you through a unique labyrinth between mountains and sea. Again and again we experience small harbour towns, where restaurants with their specialities invite you to stay.

Experience with us an original Croatia, where the hinterland becomes a time travel into the past. In the Velebit mountains we drive on beautiful side roads with wild karst rocks. This is where the inland separates from the sea, and the mountain roads open up ever-changing views of a fantastic landscape!
Montenegro

Located between the Adriatic Sea and the Balkans, we "experience" the mysterious Montenegro. Rugged cliffs surround the bay of Kotor, the panorama reminds very much of Norway and therefore it is without doubt one of the most beautiful landscapes in Europe. Affectionately called the pearl of the Adriatic, the hinterland offers cosy mountain villages, rustic forests and an unspoilt nature away from mass tourism.

In Durmitor National Park we drive on small mountain roads on our way to the spectacular Tara Gorge. With its 78 km length it is the longest and deepest gorge in Europe and when you arrive here you can enjoy impressive views.

Difficulty Level:

Medium (SG 2): This tour includes many curves and partly serpentine stretches. The tours are a mix of tight turns and long curves at normal speed. The tour includes small passes with tight bends, normal gradients and mainly winding roads, which require good visibility and safe control of the bike. Due to the partly long daily stages, a good physical condition is required.

Our tour groups are deliberately kept small and limited to 10 motorcycles. The minimum number of participants on this tour is 6 persons.
