Dreamlike serpentine - Curvy rides all over the island !

Here you can get exciting motorcycle tours on the beautiful island of Crete at incredibly low prices. Our all inclusive packages with rental motorcycle, hotel, airport transfers and tour suggestions will convince you. Whether as an individual or in groups: we will introduce you to the island of Crete from completely new angles!

Below are a few selected examples for self-guided tours. Further tours will be passed on to interested parties on request after arrival at the hotel.

And the best thing before you start: this offer can be booked at any time, all year round. Simply indicate your request and desired date.

Tour example 1 - Lassithi-Agios-Elounda, distance approx. 140 km

The ascent to the Lassithi plateau leads through small mountain villages with hundreds of beautiful bends to about 1100 meters. Over the eastern pass we go to Agios Nicolaos. Here lies the origin of the Cretan tourism. The beautiful harbour town invites you to stroll or to have a little refreshment. Heading north, we reach Elounda where we can visit the last leprosy station (until 1957), the small island of Spinalonga. The onward journey for via Neapoli to the small mountain village of Mohos. Our tip is the Taverna Aristodimos directly on the small market place of Mohos. Here the landlady Niki still cooks herself and almost everything from her own cultivation.

Tour example 2 - Arolitos-Anogia-Nidaplateau-Observatory, distance approx. 240 km

On the national road towards Heraklion, leave it at the Gazi

exit. At the first traffic light keep left towards Anogia. After about 3 km you will find the entrance to the small hotel village Arolitos. A stop that is really worthwhile. The continuation of the journey leads to the west. At the first fork, keep right and follow the old national road towards Rethymnon. After about 45 km follow the sign to Anogia. In Anogia you will find a bigger Shell gas station with attached tavern at the end of the village, here we recommend the lamb from the oven. Even if you are not a fan of lamb, you should definitely try it because it is very rare to get this delicacy fresher than here. From this stop we go to the Nida plateau where the legend of Zeus saw the light of day. At the end of the plateau there is a large parking lot. From there on it is only off-road (dead end) and is only recommended for experienced riders. On the way back from the plateau (approx. 6 km) we turn right to Skinakas up to 1758 meters to the observatory (closed in case of snow). In good weather a hammer view. The return journey from the observatory leads now again over Anogia in direction Heraklion.

Tour example 3 - coastal tour (northeast, southeast) Agios-Ierapetra-Sitia-Mochlos, distance approx. 260 km

The tour starts in eastern direction, in Agios you keep right at the traffic lights towards Sitia. After about 1000 meters there is an underpass. Before the underpass, take the first exit and follow it straight ahead over the big crossing (Old National Road by the sea) towards Amoudara. Now you have a super nice curved track to the narrowest point of the island. Shortly before the right turn to Ierapetra there is a small souvlaki shop on the left side. Here you can get very fresh pork or chicken souvlaki for only 1,50 €. Follow the right turn to Ierapetra, here you can enjoy a delicious cappuccino in one of the many cafes on the waterfront. From here, just follow the sea to the east. Before you reach

the small village Kato Nero just keep heading towards Sitia. After hundreds of bends you will reach Sitia, the largest city in the east. Arrived in Sitia, we now head back towards Agios via a wonderful descent on the longest broom and oleander road in Europe. After about 35 km you will see Taverna Natura Bio on the right hand side. Please turn right here into the village of Mohlos. A beautiful little fishing village. Here you should definitely visit the Taverna Bogazi. Fish, octopus and crustaceans as you can't get them fresher. The journey continues via Agios back to the Motocamp.
