

Leaning Training on the BMW R1250GS and BMW F900R (Germany) (M-I

<https://www.motourismo.com/en/listings/2503-leaning-training-on-the-bmw-r1250gs-and-bmw-f900r-germany>

from €290.00

Dates and duration (days)

Unique in Germany: The new and unique BMW Wingbikes, the R1250GS and F900R.

In our leaning training you learn about being able to build up leaning position safely, especially in emergency situations and we show you how it works properly, promised! Curves are then certainly your passion!

Our head naturally only allows an incline of approx. 20 degrees, so it has to be trained again and again! Our wing bikes with their outriggers ensure a feeling of security so that the head is clear. In this curve training you will learn how to safely build up an incline in order to react correctly in emergency situations. Lean angle training on our BMW F 900 R is particularly suitable for younger riders - before, during or after motorcycle riding school.

Important! Before, during or even after your motorcycle riding school you can participate in the leaning training, even without a driving license, our BMW F900R is especially suitable for our younger participants!

An additional sense of security gives you a Helite airbag vest; with us you get to know the function of this "lifesaver in emergency".

Breakfast precedes the on-road training: In our Coffee Corner you will get to know your fellow passengers (max. 5) and your instructor. During the entire course of the course, full catering including drinks - as usual with us - is provided.

Safe cornering technique

For good cornering technique, you will train the correct line of sight and line selection, try out various riding techniques and learn the fundamentally important active sitting posture. Thanks to the outriggers on our wing bikes, you can relax and practice the safe incline.

PS: With this training we actively contribute to reducing the

number of accidents!

FAQ - frequently asked questions

> Is protective clothing required?

Participation in the training is only possible with complete safety clothing (full-face helmet, motorcycle trousers + motorcycle jacket with protectors, gloves, boots).

> Do you have changing facilities?

Yes - there are modern sanitary facilities: showers and changing rooms with their own lockers. So feel free to come in "civilian" by car - you can then change on the spot.

> Does the training take place in any weather?

Basically the training is carried out in all weather conditions. Training will only not take place if there is no training possible on the terrain due to the weather conditions - but this has never happened before. The conditions at our location are decisive! Participants who travel from further away should call us at their home in case of adverse weather conditions and ask how things stand here.

> Can I participate in the training with socio/social partners?

In individual phases (from midday onwards) it is partly possible - by prior arrangement - to ride a motorcycle in pairs in the lean angle training.

> Can I take part in the training even without a driving licence?

To participate in our trainings a valid driving licence class A and riding experience is required.

> Is a single instruction possible?

All trainings are also possible as individual instruction. If there are more than 5 participants*, it is also possible to arrange your own training dates.

> Do I have to pay for any damage caused to the motorcycle myself?

No! All damages are covered by the training fee, except vandalism.

> What are your payment methods?

You can pay the participation fee by invoice - normally payable within 30 days or by the latest training date if this is earlier. If the date is 4 months or later, there is a 60-day payment term.

> Do you have any hotel recommendations?

Yes, we can recommend some hotels in the area to you. Upon request, we'll send you an overview of our recommendations.

> Can I spend the night at your place with my camper, bus or similar?

You are welcome to park your overnight vehicle in one of our signposted parking areas. However, we do not have public sanitary facilities here. If you have not equipped your motorhome or similar, you will certainly be better off in one of the nearby campsites.

> Can I bring friends/family as visitors?

I'd be glad to. In the inclined position training area there is a table and seats. There your visitors can stay and watch you during the day on the training ground.
