

Motorcycle shipping: Germany - New Zealand (M-ID: 2761)

<https://www.motourismo.com/en/listings/2761-motorcycle-shipping-germany-new-zealand>

from €3,800.00

Dates and duration (days)

On request

7 days

It is possible to transport your motorcycle via air freight or via ship. Potential destinations are Auckland and Christchurch.

Packaging

For transports to New Zealand, the motorcycle must be packed in one case. Just talk to your local motorcycle dealer - they are often happy when the overpack of new vehicles can be disposed free of charge. Best try your luck at one of the dealers of Italian or Japanese manufacturers. Although many brands have already converted to returnable packing, you should give it a try! You will save hard cash if you keep your box as small as possible, e.g. by removing the front wheel.

Alternatively, packaging can take place via an enterprise in Hamburg determined by us. Please note that transportation costs are higher in this case, since - due to liability reasons - no parts of the motorcycle may be removed and thus the packaging will be more spacious.

Further package can be stowed unless hazardous substances according to aviation regulations are involved (e.g. batteries/accumulators, methylated spirits, motor oil, aerosols).

Transport to New Zealand

It is possible to transport your motorcycle via air freight or via ship. Potential destinations are Auckland and Christchurch. You also have the option to book just a one-way transport or a multi-stop transport as well as: outbound trip via plane and return trip via ship or vice versa. The approximate duration of transport will be 7 days via airplane or 5 weeks via ship.

It is possible to retrieve your ready packed transport box via truck featuring lift and pallet cart at your premises.

Return Transport

Return transport can be effected via plane or ship. You have the option to book just a one-way transport. In this case, our partner takes care of the organisation of

packaging at the port of destination. The approximate duration of transport will be 7 days via airplane or 7 weeks via ship.

It is possible to deliver your motorcycle in a transport box via truck featuring lift and pallet cart to your premises.

At the Destination (in Case of a one-way Transport)

Please contact the local representation of your airline or shipping company after your arrival. After payment of local fees, customs clearance will be effected. Now you just need to unpack your motorcycle and off you go! The approximate time duration at the airport comes to 1 day. You can leave your empty box there. Of course, this process can be handled at the destination along with our partner. However, travellers are advised to perform these steps by themselves due to financial reasons.

At the Destination (in Case of both Transports)

For a joint customs clearance, please contact our local partner after your arrival. Now you just need to unpack your motorcycle and off you go! The approximate time duration comes to 1 day. The empty box will be stored by our correspondent. Please contact our forwarding agent a few days prior to return transport and coordinate your vehicle's drop off. Upon completion of your vacation and customs clearance, your motorcycle will be repacked into the box. Anything else will be organised by us here in Hamburg or by our partner at the destination.

Customs

For a trouble-free import and export in your country of destination, a so-called Carnet de Passage is required. It is exclusively available at automobile clubs (in Germany ADAC). The Carnet needs to be presented in the country of destination only, it is not required for the export from Germany.

For a binding information concerning final import of

vehicles, please be addressed to the automobile club or the customs authorities at the destination. The vehicle must be absolutely clean and free of insects and dirt. The same applies to luggage transported in the relevant box. An investigation of the Australian agricultural authority is mandatory and a quarantine can be decreed.

Transport insurance

As an option, we offer a transport insurance against total loss and transport damage of your motorcycle. The premium amounts to 0.95% of the vehicle value, at least € 95.00. Paint damages and oxidation are excluded, vehicles older than 9 years are insurable against total loss only. Please note that additional luggage stowed in the transport box is uninsurable. We recommend to inform yourself about a traveller's baggage insurance. In case of damage, it must be visible from outside. Retention comes to € 500.00 per claim.

Countries	Germany
	New Zealand
Category	Motorcycle Shipping
Flight to / from	no, not incl.
* PRICING	Minimal without optional extras, see pricing

Pricing

by airfreight for a usual enduro from various airports in Germany to New Zealand and back	€7,000.00
by ship for a normal enduro trip from Hamburg to New Zealand and back	€3,800.00

The prices are based on current fares and also include present fuel and security charges as well as fees for dangerous goods besides all port and clearance charges. Please regard this as a rough price indication since costs vary depending on destination and size of the box. Multi-stop transports as well as an outbound trip via plane and return trip via ship or vice versa are possible. The weighting of the price for initial / return transport comes to approx. 40/60.

Included

Motorcycle transport by air freight or by ship to New Zealand and back

Not included

Everything that is not listed under services

More details

Our prices are calculated individually, we therefore ask you to give us the length, width and height (mirror / glass disassembly!) and weight - primarily the volume is decisive, so the smaller the box the cheaper the transport costs.

Contract and payment: if you have decided to book, we will draw up a contract of forwarding, which you will send back to us signed. The first partial billing of the transport will be made promptly after the collection/delivery of the motorcycle, we do not charge a deposit at the conclusion of the contract!
