

Motorcycle shipping Chile, air freight (M-ID: 2767)

<https://www.motourismo.com/en/listings/2767-motorcycle-shipping-chile-air-freight>

from €6,000.00

Dates and duration (days)

On request

7 days

Possible delivery points are Hamburg, Frankfurt, Cologne, Stuttgart and Munich. On request, the transport box can also be picked up / delivered at your premises. About one week before the start of the trip the motorcycle will be sent off, so that a timely arrival is guaranteed.

After customs clearance - which must be carried out by the traveller himself (takes about 3-5 hours) - the motorcycle is simply unpacked and off you go! Meanwhile, the empty box is stored or simply left behind in the case of one-way transport.

A few days before the return transport you contact our forwarding agents and agree on the delivery of the vehicle. At the end of the holiday, the motorcycle is loaded back into the box, everything else is organised by our local partner and us here in Hamburg. The return transport is calculated with about 10 days.

Our service includes transport and handling for the outward and return journey. The storage of the empty crate as well as the current fuel, dangerous goods and security fees are also taken into account.

The costs are based on the size of the transport box and amount to about € 6.000,00 for a normal enduro for outward and return transport. The weighting for outward and return transport is about 40/60.

Please consider this as a rough price indication and let us know your transport data for an exact calculation.

A collection/delivery of the ready packed transport box by truck with lifting platform and pallet truck at your place is possible.

Optionally we offer transport insurance against total loss and damage to the motorcycle. The premium amounts to 1.6% of the vehicle value, at least € 160.00 for the entire trip. Possibly with stowed luggage in the transport box is unfortunately not insurable. We therefore recommend that you enquire about luggage insurance. The damage must be visible from the outside and the deductible is € 500,00.

We would be pleased if this information has helped for the time being. Would you like a concrete offer? Please give us the dimensions of the crate or motorcycle as well as the planned travel time, then we will be happy to make an individual calculation free of charge.

Our prices are calculated individually, we therefore ask you to specify the length, width and height (remove mirror / window panel!) and weight - primarily the volume is decisive, i.e.: the smaller the box the cheaper the transport costs.

For the trouble-free import and export in the country of destination we recommend a Carnet de Passage, which is only available through the ADAC, but this is not mandatory for Chile. For the final import of vehicles, please contact the automobile club or the local customs authorities for binding information.

The motorcycle must be packed in a box or similar for transport. Just ask your local motorcycle dealer, they are usually happy if the outer packaging of new vehicles can be disposed of free of charge. You are usually luckiest at the dealers of Italian or Japanese brands. Alternatively, you can purchase a standard motorcycle box from us, which can be delivered to your home or you can pack the motorcycle at the airport or port. Additional baggage may be stowed with it, provided that it is not hazardous material according to aviation regulations. (e.g. methylated spirits, motor oil, spray cans) Basically, it saves money to keep the box as small as possible, e.g. removing the front wheel. Our prices are calculated individually, we therefore ask you to give us the length, width and height (mirror / glass disassembly!) and weight - primarily the volume is decisive, so the smaller the box the cheaper the transport costs.

Countries	Chile
Category	Motorcycle Shipping
Flight to / from	no, not incl.
* PRICING	Minimal without optional extras, see pricing

Pricing
