

## Motorcycle transport Canada sea freight (M-ID: 2775)

<https://www.motourismo.com/en/listings/2775-motorcycle-transport-canada-sea-freight>

**from €1,495.00**

Dates and duration (days)

On request

**The delivery is only possible in Bremerhaven. On request, the motorcycle can also be picked up at your place. The motorbike will be sent out about 3 weeks before the start of the trip, so that a timely arrival is guaranteed.**

Loading and lashing is carried out by the port staff in the same way as on a car ferry - but without passengers being taken along. For customs reasons no luggage may be given to the motorcycle.

Suitcase and topcase may remain on the motorcycle, but must be empty and accessible.

These are closed ships, so the motorcycle is protected from seawater. After payment of the local port fees of approx. CAN\$ 150,00 and customs clearance - which must be carried out by the traveller himself (time required approx. 1 day) - the motorcycle must only be picked up from the port and off you go!

A few days before the return transport you contact our forwarding agents and agree on the delivery of the vehicle. At the end of the holiday, the motorcycle is returned, everything else is organised by our local partner and us here in Hamburg. The return transport is calculated with about 3-4 weeks.

The costs depend on the exchange rates and fuel costs and amount to approx. € 1,495.00 flat rate per motorcycle for transport from Bremerhaven to Halifax plus the Canadian fees and € 1,595.00 flat rate per motorcycle for transport from Halifax to Bremerhaven including all port fees.

Problem-free import and export in the country of destination is possible without Carnet de Passage. Transportation from Germany to Halifax is possible by sea freight, but we do not recommend it. A better alternative is transport by air: Motorcycle transport Canada, air freight.

Optionally we offer a transport insurance against total loss and damage of the motorcycle. The premium amounts to

1.6% of the vehicle value, at least € 160.00 for the entire trip. Possibly with stowed luggage in the transport box is unfortunately not insurable, we recommend to inquire about a luggage insurance. The damage must be visible from the outside and the deductible is € 500,00.

On request, a collection/delivery can also be arranged.

We would be pleased if this information has helped for the time being and look forward to a feedback. Would you like a concrete offer? Please give us the dimensions of the crate or motorcycle as well as the planned travel time, then we will be happy to make an individual calculation.

Countries	Germany
	Canada
Category	Motorcycle Shipping
Flight to / from	no, not incl.
* PRICING	Minimal without optional extras, see pricing
