Dates and duration (days)

On request

Eyes and head, viewing direction, cornering techniques, braking – maximize not only your safety but also your riding fun under the watchful eye of our professional trainers and use the follow-up tour through the Kaiserstuhl, the Black Forest and the Vosges to deepen your new skills.

Whether you're an occasional biker, you're new to riding motorcycles or you've just gotten back on your motorbike after not having ridden one for years: under the supervision of our experienced and certified instructors you'll be able to maximize your riding experience as well as your safety in no time – all together right in the middle of beautiful Black Forest.

Over the course of the first day, you'll learn how to use your brakes safely, how to apply different cornering techniques, how to find the perfect curve line and manage your eyes, head and viewing direction while doing so.

Furthermore, in our consecutive three day tour through the Black Forest, the Vosges and Alsace, you'll get to practice your new riding skills right away along with our experienced guides and trainers, enabling you to deeply understand the most important riding techniques.

Schedule and itinerary:

Day 1:

Welcome to the modern, air-conditioned training room with coffee and beverage vending machine.

After a round of getting to know each other, the experience and knowledge of each participant is surveyed. The training is then structured according to the personal needs and wishes of the participants.

Training contents on the driving training ground:

- correct eye technique, viewing direction
- correct steering technique

- different cornering techniques
- correct curve line
- correct use of front and rear brakes
- developing and training strategies for emergency manoeuvres
- improving handling when riding slowly and in hairpin bends

Everything is voluntary, of course. Anyone can practice and train in his own a pace not to be overwhelmed.

Day 2:

Tour through Kaiserstuhl, on request with the subjects:

- riding in the group
- turning on a slope
- curve line in real traffic
- braking on loose ground

Day 3 and 4:

Guided tours to enjoy and implement what you have learned, of course with feedback from the instructor at any time if desired.
