In our two-day basic training course, you'll get an introduction to off-road riding with big off-road bikes: the R1250GS is our favorite. Of course, you can also join in with your own motorcycle.

Our goal is to make you a confident rider on gravel roads and off-road tracks. We prepare you for your next adventure: This is the perfect preparation for riders who dream of traveling to foreign countries off the beaten path.

Day 1 starts with a riding training in our enduro park. You will practice the basics of enduro riding through slaloms, u-turns and braking. On the second day we start with an offroad loop towards Sierra de las Nieves. On this day we add single trails, easy river crossings and small climbs and descents to complete your training so you are ready for your next off-road ride.

Starts at 9:30h, ends at 17:30h.

The training area is located in the south of Spain just 20 minutes by car from Málaga airport. It offers a full 12.5 hectares of off-road fun with 2 huge training areas, uphill and downhill tracks, single trails and many other possibilities for off-road riding.
