9 Tage

Get ready for an exciting adventure in a country of wonderful varieties, natural beauties, and countless treasures.

A country is so full of diversity that will give you a lot of good memories to take back with you. Ecuador is a country of stunning contrasts where the highest peaks of the middle of the world descend to the rivers of the dense amazon basin to reach its final destiny, the deep blue Pacific ocean.

We offer you the most rewarding experience, riding across Ecuador enjoying the unique sensation only a motorcycle can offer you. Riding all around the country and feeling different climates after each hour that goes by, watching the flora and fauna change drastically on each road we take on. This beautiful country is full of wonders waiting for you to uncover.

We call this tour three worlds for a very unique reason: Continental Ecuador gives you the opportunity to be in three completely different environments. From the warm ocean breeze on the coast to the temperate climate surrounded by volcanoes in the Andes, to the humid rainforest jungle with thousands of flower and animal species in the Amazon. Many countries could offer you the same, but this is the only one that you could do this within a day because the three worlds are only hours riding apart from each other.

The route is designed to be fully enjoyed, filled with long straight roads, sharp turns, uphill, and downhill; you will get the complete experience of what it means to ride a motorcycle in Ecuador.

Itinerary

DAY 1

QUITO - PAPALLACTA - TENA - MISAHUALLI

216 km (135 miles)

Today day, we will start with a briefing in our offices in

Quito, located in the heart of the capital. You will fill the last paperwork needed, be able to try on your gear, and test it. After a quick brief on roads and safety, we'll depart on our way. You will ride through the capital until we reach the outskirts of the city to our final destination of the day, the famous Town of Misahualli. On our way there, we will be passing over the highlands of the Antisana Ecological National Park. This stratovolcano is the heart of the park and soars over the city at 5,704 meters above sea level. Located 50km southeast of Quito, you can spot it from anywhere. After going through the highlands of Antisana, we'll ride by one of the highest points on our tour 4,000 meters above sea level on the highway. Papallacta is a small town located at 3,300 meters above sea level, a unique place where you will begin to feel the climate change. All the colorful flowers suddenly start disappearing, and the tundra begins to show off. Going through this small town, we'll begin our descent through the gateway to the Amazon basin, Tena city. Delicious local gastronomy will be of our taste there. We'll take a break from our adventure on the motorcycle to take a walk inside the Jumandi caves. Located in the heart of the Amazon, we'll have an approach to the ancestral culture and its myths, appreciate incredible stalactites, underground rivers, and animals that live inside. To appreciate a bit more the fauna in the Amazon, on this adventure motorcycle tour we'll take a small detour at the animal rescue center. Home of illegal traffic and rescued animals. Once at our hotel, an indigenous community will be expecting us to show us their traditions. We can enjoy a moment with them and perform traditional activities.

DAY 2

MISAHUALLI - BAÑOS DE AGUA SANTA

151 Km (94 miles)

After breakfast and before continuing our trip to the famous city of Baños we can take some time to play with the restless Capuchin monkeys that live on the river beach. Once we are done enjoying a good time with these animals, we'll head to Baños riding along the Amazon basin – Sierra border. The road towards Baños is unique, where challenges are present on downhill asphalt rides with a lot of sharp turns and twisties. This place is one of the top destinations on a guided tour for tourists around the world. The magical city located next to the active volcano, Tungurahua offers beautiful attractions during the day from the canopy, trekking, the magnificent waterfall 'El Manto de la Novia' meaning 'The brides mantle', the famous "swing at the edge of the world", and the astonishing, 'El Pailón del diablo'. In the evening after dinner, we will have time to tour the city, have a revitalizing massage, and prepare for a long but entertaining day on the motorcycles with many landscapes and places to meet.

DAY 3 BAÑOS - CHIMBORAZO - CUENCA 324 km (202 miles)

An early day starts with breakfast at our hotel in Baños. We'll get our gear and luggage ready, check out, and then continue with our adventure. Our road to Cuenca has a lot of varieties. The ride will go all through the Andes region to the south of the country, passing alongside the emblematic Chimborazo Volcano. Chimborazo is a currently inactive volcano in the occidental range of the Andes. Its last eruption was around 550 C.E. Its peak elevation is 6,263 meters (20,548ft) making it the farthest point from the center of the Earth, and also the Earth's closest point to the sun. On the way, we can pay a visit to the first church of Ecuador, built in 1534 between Indians and Spaniards, this church established in the first Castilian city of Ecuador. Another 3 hours of riding your motorcycle rental and you will be in the city of Cuenca, a city known as being the most delightful city in the country. A town in the southern section of Ecuador, known for the original handcrafting of the Panama hats, its beautiful cathedrals, the Devil's nose train, Cajas National Park, and the great Tomebamba river crossing through the city. If the weather allows, we can see the famous Devil's Nose, a train route known to be the most complicated in the world. It crosses an almost perpendicular wall which forces it to make a zigzag ascent of 500 meters in height – a route of only 12.5 kilometers. When we reach the city of Cuenca, after leaving our belongings and motorcycles at the hotel, while we go to dinner, we'll have the first glance at the historic center.

DAY 4 ACTIVITIES IN CUENCA 0 km

Rise and shine in beautiful Cuenca! After having a proper breakfast early in the morning, we'll ride back up north for about 80km towards the Ingapirca ruins. An exciting asphalt road with many sharp turns awaits us before the ruins. This ride will be delightful as all the landscapes of Cuenca will be seen from a top point of view. Ingapirca ruins are the largest in Ecuador, the only Sun Temple of the Inca Empire. It is commonly known that the temple was built with millions of stones under the order of Huayna Capac, Inca leader of the time. His primary interest was to conquer nearby lands and expand his territory; building these structures would give him that. Its architecture demonstrates unique traits about our past culture, like teamwork, toughness, and power. A tour around the ruins will be held there by local professional guides. After lunch,

we'll head back to the city of Cuenca to enjoy a ride on a tour bus through its streets. While at it, we'll have detailed information about the places we visit and with the possibility of getting off the bus, visit the site and then resume the tour. Here is the Homero Ortega Panama hat factory, where you can watch the complete manufacturing process of the hats. You will see them handcrafted right in front of you and then taken to the central plaza to be sold. Calderon Park is so full of history, and it counts with a unique colonial and historical contrast that will open its doors to you. Cuenca is filled with beauties, full of lights surrounded by the Old and the New Cathedrals. The Old Cathedral was built around the 1500s, used as a church before. Now it has become a museum to showcase its beautiful architecture. The newer Cathedrals have a different architecture, being a more gothic style but just as beautiful.

DAY 5 CUENCA - GUAYAQUIL 196 Km (122,5 miles)

We continue with our adventure and this time to the Ecuadorian Coast. To say goodbye to the city of Cuenca, we'll cross the Cajas National Park. You can enjoy a delicious trout caught by yourself before entering this spectacular national park surrounded by lagoons and landscapes that will take your breath away. We'll get back on our motorcycle and start heading west towards the Coast, but not without having a proper lunch based on local cuisine. The road to Guayaquil is one lane fully asphalted. On this part of our tour, we'll ride thoroughly for 3 and a half hours towards our final destination of the day. During the ride, you will feel a significant climate change, from the cold of the Andes to the warmth in the Pacific. Once we arrive at the hotel, we'll check-in and have a lovely dinner ready to greet us. You will be able to know firsthand why the food from Ecuador's Coast is the best.

DAY 6 GUAYAQUIL - MONTAÑITA 185 km (116 miles)

Good morning from Guayaquil, the city of the Astillero. The first thing you notice when you wake up is the warmth of the Ecuadorian Coast. We'll enjoy all varieties of great seafood Ecuador has to offer. After filling our tanks with this excellent local gastronomy, we'll take the direction towards the famous Spondylus route in the Ecuadorian Pacific Coast, known for assembling the whole coast profile. Our ride will be on asphalt road for about 2 hours. We will arrive in Montañita, an international convention center for all tourists and sports. It is a village on the peninsula of Santa Elena province, commonly known for its energetic surf beaches and bohemian lifestyle. Its top attractions are nightclubs and the nightlife. This day will be our little escape to have fun and disconnect from the world. Your lunch will be ready at the hotel, followed by a surfing lesson which allows you to blend with the locals in their venue. Surfing will test you entirely. It is a challenging sport to master, but once you get it down, you won't be wanting to get out of the water any time soon. After this activity, we'll get some rest, and at night, you will enjoy the beach ambiance, the nightlife, the pastimes, and the hobbies of locals and tourists. Keep in mind that we'll need you in one piece and early the next day to continue with our adventure.

DAY 7 MONTAÑITA - LOS FRAILES - MANTA 156 km (98 miles)

Waking up in our very own “city of sin” can be hard, but we gotta continue giving you fun! And so we'll keep the Spondylus route. Riding our horses of steel through asphalt roads, with the ocean right next to us, drawing a beautiful landscape and path filled with twists towards Los Frailes beach. Los Frailes is considered a breath-taking beach in Ecuador. It is very exclusive inside the Machalilla National Park. We have to go through a few kilometers of a mild off-road. A beach wind-free, surrounded by tall cliffs makes it a perfect place to relax. It is most of the time quiet, as not many tourists know about the existence of the beach, making it one of the greatest spots to rest and shoot some great pictures. The water is deep blue and turquoise, crystal clear and temperate. We'll stay a couple of hours at Los Frailes, and we'll continue with our adventure up north to our next stop, Manta. Manta is another famous city on the country's coast, another main port of Ecuador, known for its fishing industry. Its iconic beach is playa murciélago, Spanish for bat beach, and its iconic dishes will delight you. Manta's gastronomy is based on traditional seafood dishes with little changes from the locals. As we ride through the city towards our hotel where a delicious lunch awaits us. Following our visit to Machalilla, we'll head back to the hotel for our dinner based on local cuisine. Once done eating, we'll get proper rest as we have a long ride the following morning.

DAY 8

MANTA - MINDO

333 km (208 miles)

Having a full blast and getting to know all three worlds in a short time now takes our last two days trip heading to Mindo. From Manta to Mindo we'll have a transition from Coast to highlands based on tunnels made out of tree branches. After breakfast, we'll have a full day of riding ahead of us. Passing by famous towns on the way back like Santo Domingo, known for its unique tribe locals who dye their hair red with spices. All these climate changes from one landscape to another, from cotton tree fields to potato farms, from a Spondylus route to twisty and fun roads across the mountains will lead us to our final destination. The changes between weather and landscape are noticeable within a few kilometers. It will let you experience our three worlds one last time before closing our adventure with a fourth and final world hidden among the mountains – the magnificent cloud forest. Declared as the first crucial South-American site of the world for birdwatching, the possibility to find flying around you during you ride over 400 different species of birds. Including 20 species of hummingbirds surrounded by nature proper of the tropical cloud forest, Mindo is the perfect place for our last stop before return to Quito.

DAY 9

MINDO - QUITO

98 km (61 miles)

Waterfalls, rivers, and lots of nature will dismiss us on the last day of adventure. We'll pay a visit to the butterfly garden, where we will be able to know all the phases of development of the butterflies, from eggs to caterpillars to their first flight. We will take a dirt road back to Quito in which we can see cocoa crops, tree tomatoes, among others. After a nice off-road you'll be getting to the little town of Nono, with a fascinating history behind. Agricultural land all planted that will offer you beautiful colors. Getting into Nono, you will pass through the eco route called “Paseo del Kinde” (path of the hummingbird). With a very deserved break to enjoy a hot chocolate and

enjoy the hummingbirds just a few steps from us and can even feed them from our hands. We'll finish your Ecuadorian experience at our headquarters in Quito, where it all began, be ready to tell us your stories over a cold local beer.

Motorcycle Guided Tours:

Completely relaxed, enjoy your motorcycle guided tours, engaging with a new environment, free of any possible concern about logistics. Everything is sorted. Your party will have a full support team behind their back, so you can enjoy your moto tour worry-free.

Because our tour guides are qualified riders, they feel more like a Swiss army knife. They are good multilingual mechanics, trustworthy adventurers, with different backgrounds: mountaineering guides, rock climbers, even musicians. Everyone in the riding group are interconnected with Scala PackTalks intercom systems, which not only allows the guide to explain what you are looking at in real time, but also helps to make sure that your party stays together.

Hotels and Lodging:

The hotels we use are 4+ star hotels, and the best eco-lodges based on single occupancy to give you the proper rest you need. In some tours, specially off-road, to fulfill the desire of being involved fully, glamping is used. We offer you the best, without the need to increase the price. This is because, of our agreements with the different local hotel chains in the country. Upon agreement, we can also use community lodging or the use of tents to enrich your experience.

Ecuador is rich in culture, therefore, we strive to show you as much variety of the local culture as possible. You can also make modifications to the tour, to visit certain part of the country, that most appeals to you. We can change the length of the tour, the route and, the activities you will be doing. One of our team members will be in touch with you shortly, to check out any specifics you would like to change. We want you to enjoy your experience the way you want it.

No Fixed Dates:

Our guides are available for you at any time. Choose the motorbike you would like to use, choose any extra item you would like to add and, check out with your tour all set!

Difficulty: Beginner
