**The perfect combination: 4 days training and tour in a dreamlike environment. 1-day training on the course, followed by a guided 2-day tour through one of the most beautiful motorcycle regions in Germany, virtually right on our doorstep.**

In a combination of a one-day safety training and a two-day guided tour, you have the opportunity to learn new skills as well as to improve and stabilize what you already know. Especially at the beginning of the season, it is ideal to first train basic techniques such as eye-tracking, braking, or dodging on a closed-off practice area. Due to the small group size of max. six participants, the trained and certified trainer has enough space and time for individual tips.

After the training, you will have the opportunity to get to know the roads of the Weserbergland and the neighboring areas in the border triangle on the way to the hotel and during the subsequent two-day guided tours. On selected routes, you will put the contents of the safety training into practice and sustainably increase your safety and ultimately your enjoyment of motorcycle riding.
