Riding a sports / dual sports enduro is your passion or should become it? A training like this always makes for a good warmup before the season starts.

Beginners Training for Enduro Riders

You want to be able to ride your enduro safely, even when it becomes trickier than on a gravel road? Then you have come to the right place. The training for enduro beginners offers the right basis to move off-road with your enduro safely. Balance exercises, cornering techniques, braking on slippery ground, recovery on slopes, starting uphill again - these are just a few exercises. Overall, the learned will let you ride more safely - not only on loose ground, but also in public traffic.
