from €890.00

Dates and duration (days)

On request

4 days

05/30/2024 - 06/02/2024 4 days

A combination of riding safety training in Garmisch-Partenkirchen and a tour to the Ötztal Alps and back.

The road highlight is the Stelvio, the highlight on the bike is you! Consolidate or expand your skills and enjoy the company of a small group of like-minded people.

Somehow you get around every bend - but sometimes is not on the right line, not at the right speed, or not with the right technique. All this can cause stress, and nobody wants that when riding a motorcycle. We'll show you how to find the line that's right for you, with the right seating position and the right riding technique, and how to ride safely and smoothly through the bend. You will also have the necessary reserves for braking and swerving. Without stress, but with the joy of correct leaning and momentum.

Curves & Turns:

During safety training, especially for the correct riding in curves and bends, you have the opportunity to learn new things as well as to improve and stabilize known things.

Group size:

You can expect a certified riding safety trainer/tour guide with a maximum of 6 participants. Thus your learning effect is very high and the trainers can respond very individually to your wishes.

The start of the season is always!

Anytime is optimal to refresh and train basic techniques. Do you still know? Seat position, eye tracking, braking, and dodging. You can put what you have learned into practice during guided tours on selected routes. In this way, you stabilize what you have practiced and sustainably increase your safety and ultimately your enjoyment of motorcycling.

Video training:

On the basis of video analyses, you can see your daily improvement. Here you have the opportunity to

immediately implement what you have practiced on the road and to experience in direct comparison what improvements the training has brought you.

Training & Tour Description:

DAY 1: Training in Garmisch - Partenkirchen/ 9.00 a.m. - 4.00 p.m.

The training in Garmisch Partenkirchen (details will be announced shortly before the event) is ideal for your first laps under guidance.

Seat position, steering technique, eye tracking, cornering techniques, weight shifting, basics: physics of motorcycling visualization and "inner line" handling of the motorcycle, riding slowly, playing with the clutch, changing direction, precise steering, braking on the straight and in the curve, exercises at different speeds, evasive action, emergency braking.

DAY 2: 9.00 am/ over the Alps into the Kaunertal valley

On this first day of riding after the training, you will have the opportunity to put into practice what you have learned while riding over the Bavarian Alps towards the Ötztal valley and to get tips and suggestions from our certified trainer for a really good riding style. After lunch, you will reach the Kaunertal valley, where we will have a training session. Afterward, we go back to the base hotel at about 18.00 o'clock. Especially for bikers, there are some in our destination. So, be curious about what else exciting awaits you.

Highlights:

- Ride on back roads of the Allgäu over the Bavarian Alps

- Riding safety training - Elements & Hahntennjoch

- Ride to the most beautiful dead end of the Alps, the Kaunertal valley

DAY 3: 08.00 departure/ approx. 18.00 arrival/ approx. 220 KM

Now it's getting serious. You are well prepared and have what it takes to start the highlight among motorcycle - riders. The Stilsferjoch is now excellent to be ridden by you. Since you are often not alone on this route, the day starts a little earlier for all of us. Over the Umbrail we make a small excursion into Switzerland and see that we can have a lot of fun riding even if we stay within the speed limit of 80 km/h. By means of photo and video recordings of you on your motorcycle and then still in a very curvy landscape, you will see your improvements. You'll have a hard time getting that grin out of your helmet.

Highlights:

- Stelvio & Umbrail
- Photo and video analysis of your improvements

Day 4: Together on detours back to Bavaria

Goodbye to the Ötztal Alps. Our last day of the tour is not only a departure day. Your training tour ends back on the Bavarian side of the Alps where it all began. In the late afternoon, you will once again ride the < probably most beautiful, curves of the year in a group among like-minded people. Don't worry, we take responsibility for tour planning with detours of the extra class. Your trainers and guides know their stuff and you can fully concentrate on the skills you have acquired.

Highlights:

- Kühtai & Praxmar
- Sölden

More details

Total distance: about 600 KM

3 overnight stays // 4 training - riding days incl. route description

Meeting place: Garmisch - Partenkirchen We reserve the right to change to another place in Bavaria.

Stages: 180 - 260 KM

Road Tour: On the road tours we ride on paved roads. Partial sections may also include natural surfaces. However, these are rideable with any road machine.

Your motorcycle: On this tour, you will ride your own motorcycle. It should have at least 125 ccs, be registered, and be technically in perfect order. 95 dB (A) Stationary noise.

Your tour guide knows the Alps very well, has completed certified training as a motorcycle tour guide & riding safety trainer and safety is his top priority. He works according to DVR guidelines.

The training takes place in Garmisch - Partenkirchen and the accommodation is also there. In the Ötztal Alps, we are in a motorcyclist - hotel.

High-level training & tour

We do not offer luggage transport on this tour. Please pack your motorcycle independently so that you are safe on the road.

Minimum participants: 6 - max. 8 participants
