11/22/2022 - 11/28/2022 7 days

11/29/2022 - 12/05/2022 7 days

You can expect an exciting and unique week of enduro fun crisscrossing Armenia.

Armenia covers an area of 29,743 square kilometers and is very diverse in landscape. The terrain is predominantly mountainous, with fast-flowing rivers and few forests. The land rises to 4,090 meters above sea level at Mount Aragats, and no point is below 390 meters above sea level. The Little Caucasus mountain range stretches through the north of Armenia, running southeast between Lake Sevan and Azerbaijan, and then merging into Iran roughly along the Armenian-Azerbaijani border.

We usually start our tours in the forested regions of Armenia, concentrated in the northern provinces of the country, and ride along deep gorges with fascinating landscapes, subtropical zones, small waterfalls and the most beautiful tracks for real enduro lovers to show you as much of Armenia's diversity as possible. However, it is very difficult to define a set itinerary upfront, as depending on the season and weather, we have to work with varying conditions of our environment and in addition to that, the tour will always be adapted to the riding ability of the participants.

Daily schedule:

Day 1: Arrival in Yerevan

Upon your arrival in Yerevan, you will be picked up at the airport and transferred to your hotel. You can now relax and rest a bit to be ready for an exciting week on the bike.

Days 2 - 6: Enduro riding days

Now we are off, usually starting in the forested areas of the North and from there riding our enduros along the endless trails through Armenia. According to your needs and wishes, we can adjust the routes so that you get to enjoy maximum riding fun without feeling overly or underly challenged. If desired, we can take some time to enjoy

some of our cultural monuments, too, but we are also happy to spend all of our days riding our motorbikes with you of course!

Day 7: Departure:

After a last night at the hotel in Yerevan we will take you back to the airport to fly back home.

Depending on the season, we may need to organize some additional transportation for our motorcycles and riders from one route to another that may cause slight price increases.
