This tour will make you enjoy the adventure of Tanzania on your bike, through untouched, magnificent destinations and tracks, off the beaten roads right into the bush...

This 9 Days Tanzania Enduro Motorbike tour will start with a 5-days Tanzania Motorbike safari and will make you enjoy the adventure of Tanzania on a motorbike through untouched magnificent destinations and tracks, off the beaten roads right into the bush. You will experience authentic and exceptional encounters with the African wildlife as you interact with indigenous groups such as the Maasai, Chagga and Sonjo. You'll see the best of Tanzania from an off-road Motorcycle that rides over mountains, valleys, and vast plains full of wildlife and rich African cultures.

After the dusty and bumpy days, it is then time to visit the highlights of northern Tanzania National Parks for another two full days of Camping Wildlife Safari, such as the Tarangire National Park and the Ngorongoro Crater. Unique to this safari is the abundance of wildlife offering you a real sense of what Africa has to offer.

In the Tarangire National Park, you will enjoy good elephant sightings and marvel at the huge baobab trees that line the horizon of this park. You can also look for cats along the swamp edge and or towards the Tarangire River.

In Ngorongoro Crater: Apart from seeing all the Big 5 and many other animals, Ngorongoro Crater is the cradle of mankind, a place where animals and humans live together peacefully on a crater floor. The task of the day will be to try and find the endangered black rhino.
